I attended a First Aid Course at 1-2 Call Worksafe premises on the 16th May 2016.

I found the surrounding to be very pleasant, the meeting room was of a good size, and neither too hot nor cold, we had refreshments to hand throughout the day.

The course was for one day, and although I thought the programme a bit ambitious, the trainer was so good that we accomplished the course in good time with just the right amount of breaks.

I have been on many First aid Courses over the last 30 years, and found this one the most professional and informative yet.

I would have no hesitation in recommending 1-2 Call Worksafe for any training needed by any company.

We have and will continue to use this company for training in the future.
